The Forbes Best-in-State Wealth Advisors ranking was developed by SHOOK Research and is based on in-person, virtual, and telephone due diligence meetings to measure best practices; also considered are: client retention, industry experience, credentials, review of compliance records, firm nominations; and quantitative criteria, such as: assets under management and revenue generated for their firms. Investment performance is not a criterion because client objectives and risk tolerances vary. Past performance is not an indication of future results. SHOOK's research and rankings provide opinions intended to help investors choose the right financial advisor and are not indicative of future performance or representative of any one client's experience. Neither Forbes nor SHOOK Research receive compensation in exchange for placement on the ranking. For more information, please see www.SHOOKresearch.com.
